

REDEFINING THE WAY WE MOVE.

The transformative modern ART system is designed to bring frequent, fast and reliable public transportation solutions to the San Antonio region. VIA would use the latest technology to make your ride comfortable, convenient and stress-free.

In November 2020, San Antonio voters approved funding for the Keep SA Moving plan – an increased investment in how public transportation can move our community.

VIA is ready to deliver,
and Advanced Rapid
Transit is a key part of
KEEPING SA MOVING.

WHAT IS ADVANCED RAPID TRANSIT (ART)?

ART is a different type of public transportation that gets you where you need to go faster. It combines modern vehicles and stations, dedicated lanes and vehicle priority at traffic signals to provide frequent, reliable service that gets you past roadway congestion.

VIA identified an initial North/South corridor that would improve access and mobility for the nearly 54,000 residents and 108,000 jobs located within the corridor. This approximately 12-mile corridor extends from the San Antonio International Airport in the north, through Downtown San Antonio, to near Mission Concepción.

- Connects people to jobs
- Encourages corridor economic development
- Enhances service for all users

FEATURES & BENEFITS

ART saves time

- Pay before you board
- Reliable 10- to 15-minute service all day
- Smart signals

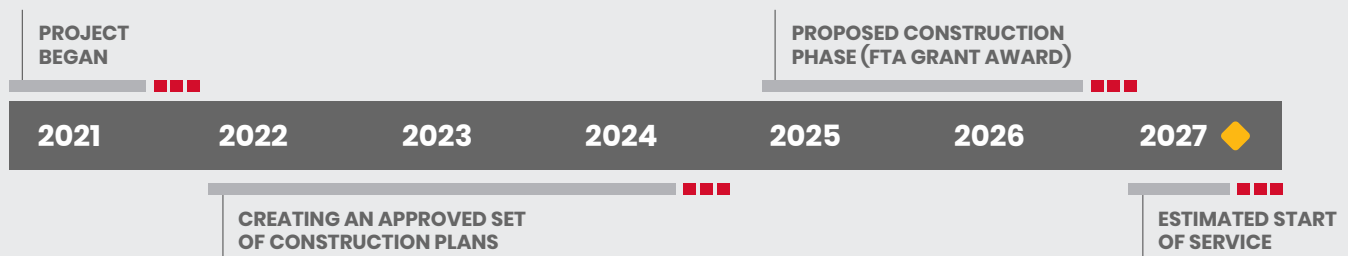

ART simplifies your trip

- Real-time route information
- Boarding for people with all abilities
- Level and all-door boarding

ART gives more options

- Connects more people to more places in less time
- Provides a reliable alternative to driving
- Delivers access to key destinations

ART N/S PROJECT TIMELINE

MOVE WITH US

VIA is hosting a series of events to provide information to customers and the community and seek feedback on project plans. To register to receive notifications about upcoming events, visit [KeepSAMoving.com](https://www.KeepSAMoving.com)
