

VIA RAPID

SILVER LINE

Moving more people faster and farther.

Advanced Rapid Transit, or ART, is a high-quality, modern public transportation system that's designed to move more people faster and farther. ART is a key component of the Keep SA Moving plan, which San Antonio voters approved in November 2020.

The proposed **VIA Rapid Silver Line** corridor would run between the area near Our Lady of the Lake University on the West Side and the Frost Bank Center on the East Side. It's being designed to improve service for existing riders and attract new riders. The Silver Line could reduce congestion and lower greenhouse gas emissions, improving air quality. Community input will help shape the final corridor.

Additional Project Benefits Include

Supports the City of San Antonio's Vision Zero goals

Connects more people to more places, faster

Supports equitable access to opportunity

Join VIA's Community Conversations

Attend the upcoming Community Conversations for the **VIA Rapid Silver Line** project, formally known as the ART East/West corridor.

➤ WEDNESDAY, JAN. 17, 2024
